MARCH BUSINESS AFTER HOURS

[Mineral Pro](#), owned by Troy (pictured below in middle) and Michelle Dickerson, hosted the March Business After Hours at Mainstay Foods-Buy the Grape, owned by Peter Veltheer.

The Chamber's business networking socials are a great way to meet other business people in a casual environment. It's also nice to meet business owners in their shops where you can learn more about the services and products they offer.

Suzy Shetler, pictured above at right, highlights some of the services and products available at Mainstay Foods-Buy the Grape. Congratulations to Shaune Lucas on winning the monthly wine draw and sincere thanks to Mainstay Foods for their donation to the wine draw.

OCC MAKES RECOMMENDATIONS TO WSIB REVIEW

The Ontario Chamber of Commerce made recommendations to the WSIB Funding Review reflecting the views of businesses from across the province. OCC argued the government monopoly on workplace safety insurance is not the only – or even the best – model for Ontario. The OCC believes employers should have a range of options for achieving workplace safety, and that flexibility and choice are the hallmarks of a successful system.

The OCC calls on the government to ensure that all areas for improvement are considered through initiating a comprehensive review of the causes of, and solutions to, the Board's financial crisis.

OCC President & CEO, Len Crispino, presented the OCC's submission to the WSIB Funding Review panel. The OCC will continue to gather input from its members in order to present to the [WSIB](#) and Ontario government with credible solutions informed by the priorities of the business community.

OCC INPUT AT RED TAPE REDUCTION COMMISSION

The Ontario Chamber of Commerce outlined its members' top priorities for reducing red tape in a [formal submission](#) to the federal government's [Red Tape Reduction Commission](#).

The OCC's recommendations stem from a 2010 [report, Red Tape Holding You Back?](#) developed in consultation with OCC members. Taken together, they represent an ambitious reform agenda that has the potential to move Canada into a global leadership position. In particular, the OCC highlights the need for:

- Improved analysis of the economic impact of new regulations
- Innovative models for private sector engagement
- Formal recognition of industry-led programs and standards as substitutes for regulation
- Fewer obligations for lower-risk and/or lower-impact activities
- Greater inter-departmental and inter-governmental collaboration in designing and enforcing regulations

The Commission's work has been suspended due to the federal election. The OCC will not be taking a break from advocacy efforts, and will continue to press both levels of government for the changes that are in the best interests of Ontario's economy.

The federal government unveiled the Red Tape Reduction Commission in January, 2011. The Commission's stated mandate is to identify the top irritants facing business and devise permanent solutions to reduce the compliance burden over the long-run.

PROVINCIAL HEALTH & SAFETY INSPECTIONS

In 2011 the Ministry of Labour continues to hold inspection blitzes on sector-specific hazards. The schedule of 2011-12 blitzes can be obtained on the [Ministry of Labour website](#).

Every year businesses are fined due to health and safety violations. The Ontario Chamber of Commerce (OCC) encourages all of its members to take advantage of new Ministry [tools](#) which can help businesses review and update their health and safety practices regularly to ensure compliance with government standards.

Inspection blitzes are carried out every year as part of the Ministry of Labour's [Safe at Work Ontario](#) initiative. Safe at Work Ontario exists to improve the health and safety culture of workplaces, reduce workplace injuries and illness, avoid costs and create a level playing field for employers.

NEW LAND USE PLANNING GUIDE FOR BUSINESSES

The Ministry of Municipal Affairs and Housing has introduced a new guide: [A Land Use Planning Guide for Businesses](#) which offers a solution to the red tape issues involved in the land use planning process. Land use planning and development may include, for example, rezoning to open a retail business in an industrial area. Far too often business plans are held up during developments such as these. This Guide is designed to help reduce the amount of these instances and make the process easier.

The Guide is a resource for businesses of all sizes and types in Ontario that may need a land use planning and development approval. It provides general information about the land use planning and development process, and can help businesses determine if they require professional assistance with approvals or can proceed independently. A copy of the brochure can be downloaded at <http://Ontario.ca/MunicipalLearning>.
